

Educational Programs: K – 2nd Grade

\$4 add-on to group admission

Android Inventors • K-2nd grade

Capacity 30 | 45 minutes

Be the problem solvers of tomorrow! Build and code a dynamic science rover that follows your command. Explore different ways scientists and engineers reach remote places using robots. Investigate how sensors work with hands-on and “minds-on” experimentation. SC.P.31.1, SC.P.12.1, SC.P.13.4, MAFS.MD.2.3

Kids Chemistry • K-2nd grade

Capacity 30 | 45 minutes

Examine the states of matter—solids, liquids, and gases. Mix common household items to explore physical and chemical changes. Play with mysterious ooze that you create. MA.B.1, SC.N.1, SC.N.2, SC.P.8

Up, Up, and Away • K-2nd grade

Capacity 30 | 45 minutes

Explore the world of space travel through the eyes of an astronaut. Learn the parts of a rocket and then blast rockets up in the air. Finish your journey with a taste of astronaut ice cream. MA.A.1, SC.E.5, SC.K.N, SC.2.N
